PEFINDO has affirmed its idAAA ratings to PT Pelabuhan Indonesia (Persero) or Pelindo as well as the Bond I/2016 and Bond I/2018 previously issued by Pelindo I and Pelindo IV, respectively. The outlook for the corporate rating is stable.

The rating reflects our view of the government's strong likelihood of support for Pelindo, its superior market position, and stable recurring income from fixed rental payments. However, these strengths are partly offset by its moderate cash flow protection measures and liquidity.

The rating may be lowered if we view there is weakening government support, such as through material divestment of ownership. The rating may also be under pressure if Pelindo incurs substantially larger debt than projected because of higher capital spending or cost overruns from its port expansions. We may also lower the rating if there are material decreases in the volume of container and cargo throughputs, resulting in a weaker financial profile on a prolonged basis.

Pelindo was established following the merger among state-owned port operators, namely Pelindo I-IV, effective from October 1, 2021. Following the merger, the port operations are managed based on the line of business cluster from which it has established four sub holdings: containers, non-containers, logistics and hinterland development, as well as marine, equipment, and port services (MEPS). Pelindo is wholly owned by the government of Indonesia.

PEFINDO menegaskan peringkat idAAA kepada PT Pelabuhan Indonesia (Persero) atau Pelindo serta Obligasi I/2016 dan Obligasi I/2018 yang sebelumnya diterbitkan oleh Pelindo I dan Pelindo IV. Prospek untuk peringkat Perusahaan adalah stabil.

Peringkat mencerminkan pandangan kami terkait kemungkinan besar dukungan pemerintah untuk Pelindo, posisi pasar yang unggul, dan pendapatan berulang yang stabil dari pembayaran sewa tetap. Namun, kekuatan ini sebagian diimbangi oleh indikator proteksi arus kas dan likuiditas yang moderat.

Peringkat dapat diturunkan jika kami melihat bahwa terdapat penurunan dukungan pemerintah, seperti adanya divestasi yang material dari kepemilikan pemerintah. Peringkat juga dapat berada di bawah tekanan jika Pelindo berutang secara substansial lebih besar dari yang diproyeksikan akibat dari belanja modal yang lebih tinggi atau pembengkakan biaya dari ekspansi pelabuhannya. Kami juga dapat menurunkan peringkat jika terdapat penurunan material dalam volume pergerakan petikemas dan kargo yang mengakibatkan melemahnya profil keuangan secara berkepanjangan.

Pelindo didirikan menyusul penggabungan antara operator pelabuhan milik negara, yaitu Pelindo I-IV dengan tanggal efektif penggabungan pada 1 Oktober 2021. Setelah penggabungan, operasi pelabuhan akan dikembangkan dengan skema pengelolaan klasterisasi lini bisnis melalui pembentukan empat subholding: petikemas, non petikemas, logistik dan pengembangan *hinterland*, serta *marine, equipment, and port services* (MEPS). Pelindo dimiliki sepenuhnya oleh pemerintah Indonesia.
